

TELESCOPIC MULTI-HEIGHT AUTO SANITISING SOLUTION

RB DESIGN & DISPLAY

Telescopic Sanitising Station

Introducing the lightweight, standalone, multi-height Telescopic Sanitising Station. The sanitiser unit has an auto sensor so no contact is needed when maintaining safe hygiene.

Perfect for airports, office reception areas, showrooms exhibitions and events. Can also be attached to a 1500mm wide reconfigurable banner system to communicate your social guidance messaging.

With the ability to link additional stations you can create multiple configurations which are re positionable at different angles.

Perfect for creating social distancing information signage, barriers or as a wayfinding system.

For your sanitiser unit requirements, contact us on:
